

## **Starlight Essence August 2018**

### **103 Divine Love**

This essence lets you be carried by divine love. This divine love sets no conditions and exists in the heart of every being. It embraces and carries all. This essence is the primordial presence of the Divine Mother in all creation; she gives birth to and nourishes all life. This essence fills the need for attention and love. It contains the purest vibration of love which unites all worlds; and brings deep healing and the experience of being carried and supported. In the divine love, there is no separation, all is complete.

#### **Daily application in August:**

1. Place a drop each with your arm stretched out in front of you, to your right, behind you and to your left.
2. Place a drop each onto the physical chakras (from root to brow chakra), onto both knees and both shoulder points (GB 21).
3. Lead the essence with your arm stretched above your head in a distance of about 40 cm in front of your body downwards to your feet. And from there back up to your root chakra. There you make a clockwise circle around the body. Repeat this for each chakra, going up all the way to the lotus chakra.
4. Place one drop into your mouth.
5. Place three drops into your hands, rub them together and place each hand onto an area in your aura or on your body that communicates with you. There can be more areas that want Divine love. So you move your hands there after finishing with the previous area.
6. When all that is done, place your hands in the prayer position in front of your heart chakra. Then open them stretching your arms out to your sides.
7. Enjoy the field of Divine Love for a moment in silence. You can stand or lie down for this. The essence can be between your feet on the ground while you enjoy the field.
