

Starlight Essence April 2021

102 Divine Fire

This essence carries the energy of the divine fire which is the origin of all that is. Creation emerges from the original divine fires. This essence brings you into contact with this original power to nourish your soul and to enhance your connection to your own heaven. It gives you the strength to follow your own path and to achieve your goals.

Divine Fire fuels the creational fire in all chakras. It frees your path so that you can connect with your own origin and at the same time align yourself with your goals. This essence penetrates all human limitations. It grants liberation and supports you in living your creation power. Divine Fire frees the soul from the entanglements of the past; and it strengthens the presence of light and love.

Daily application in April:

1. Place one drop onto the base chakra front and back. Then hold the essence close to the front of your base chakra, and then lead the essence around the base chakra in a clockwise circle, on the back of your base chakra hold it there for a moment before returning to the front.
2. Do the same for the other chakras (sacral, solar plexus, ..., to the brow chakra). For the lotus chakra, place one drop onto the top of your head and then make the circle like with the other chakras.
3. Place one drop each into your mouth, both shoulder points (GB 21), both knees and the back of your feet.
4. Place one drop with your arm stretched out to the front, to your right, to the back and to the left of yourself. Sit or stand in the establishing energy field and remain there until the energy has been fully taken up.
