113 Sai Baba's Fulfilment

Sai Baba's grace and endless abundance of light can be contacted through this essence. Sai Baba, as a divine incarnation, described in the Vedas, appeared as an incarnation on Earth to deliver God's promise: the promise of the completion of the creation of light which has its expression in the Golden Age. It is an era of complete peace where everyone takes their place and lives their own divine expression full of joy and devotion. This essence brings you into contact with the potential of completion and strengthens it allowing your own path to unfold. The essence opens the gates to heaven and Earth through which all supporting energy that is needed can come into your life. Sai Baba's Fulfilment lets you take your steps, carried by the golden light, focussed on your goal. It touches the core of your being and helps you to live your core qualities. It promotes the recognition of yourself and all others as an embodiment of divine love. Sai Baba's Fulfilment lets you dive into your complete soul potential so that you may be enthused and prepared to fulfil your tasks. Sai Baba's Fulfilment grants complete visions of the Golden Age; and it brings you into contact with the golden lotus levels, which enable the manifestation in the Earth's structures. It also brings you into contact with the golden heart as a new creation level in the heart chakra, enabling you to dive into divine truth and to grasp your complete incarnation task. It grants the gift of being carried by the golden waves and contains divine peace in its completeness.
