

Starlight Essence October 2021

67 Magenta

Magenta reconnects you with your divine guidance, your creation purpose and your divine plan on all levels. It helps you to recognise the next steps on your path and to act upon them granting liberation and freeing you from the worlds of illusion. Magenta supports you in all phases of transition and transformation by reminding you of your own immortal light; and it opens gates so that you may enter new spaces. This essence connects you with the original shamanic wisdom in pure form. It supports everyone who travels in other realms or communicates with spirits, to do so with clarity, without getting lost and in alignment with divine law.

New Levels 2012

Magenta brings you into contact with the leadership levels of light so that the abundance of light in the new times becomes tangible and can be expressed through you in all areas of your life. Magenta supports a life of abundance in alignment with divine natural law; and through this essence new light structures are formed and new networks are created. This essence also enables access to star knowledge; and supports you as you travel through dimensional gates.

Daily application in October:

1. Place one drop each onto the LU 1 acupuncture points (right and left), onto the shoulders, onto the middle of the head, onto the temples (left and right), onto the brow chakra (front and back); then onto the other chakras from throat to base chakra and onto both kidneys (left and right).
2. Hold the essence with your arm stretched out above your head and then slowly bring it downwards to your feet; there place the essence between your feet; wait and then slowly bring it up to your heart chakra; there hold it and then lead it around the body in a clockwise circle, hold on the backside and then close the circle in front of your heart chakra.
3. Finally, place one drop in your mouth or in a glass of water and drink it.
