

Starlight Essence April 2022

51 Fire of Venus

On Venus there is a holy fire that is filled with love and wisdom. Fire of Venus brings you into contact with the energy of this fire and nourishes the fire element in your body. It is a softly burning yet powerful fire. Fire of Venus illuminates the Earth fire of the base chakra so that it can unite with the fire of love in the heart chakra; and by doing this it activates and connects the fire between the base chakra, sacral chakra, solar plexus chakra and heart chakra. Fire of Venus supports transformational fires and sacred fires. It helps the earthly fire to connect with the heavenly fire.

Fire of Venus brings you into contact with the unity of the fire of Agni, the Christ fire and the golden creation waves. The synchronisation of Heaven and Earth can be experienced in manifold form.
